

Fares Fady Elhabashy

Junior Flutter Developer

El-Mahmoudia, El-Beheira, Egypt | +20 128 178 8394 | fareselhabashy7@gmail.com
GitHub: [FaresFady](#) | LinkedIn: [fares-elhabashy](#) | Portfolio: [faresfady.github.io/portfolio](#)

Objective

Flutter Developer passionate about building high-quality cross-platform mobile applications. Skilled in Flutter, REST APIs, Firebase, Clean Architecture, and MVVM. Seeking to grow within a dynamic and innovative environment as a Junior Mobile Application Developer.

Education

Kafr El-Sheikh University, Faculty of Computers and Information 2022 – 2026
Information Technology Department
GPA: 3.35

Technical Skills

Flutter Development: Flutter Widgets (Stateless & Stateful), Navigation, MVVM Architecture, Custom Widgets & Themes, Material Design, Local Storage (SharedPreferences).

Backend & APIs: RESTful APIs, JSON Parsing, Firebase (Authentication, Firestore).

Performance & Code Quality: Clean Architecture, MVVM, Code Organization for Scalability & Maintainability.

UI/UX & Animations: Custom UI Design, Implicit Animations, Live Search, Responsive UI.

Development Tools: Git & GitHub (Version Control).

Programming & CS Concepts: Dart, C++, C#, Python (basic), Java (beginner), MySQL (basic), OOP, Data Structures & Algorithms.

Projects

KUH-E-Clinic — Smart Hospital Management System github.com/FaresFady/KUH-E-Clinic-MyVersion

Graduation project: a multi-role hospital management application built with Flutter and Clean Architecture, supporting Doctors, Nurses, Admins, and Managers, each with dedicated workflows and permissions. Integrated REST APIs for real-time data exchange between the different user roles, with an MVVM-based structure for scalability and maintainability.

NewsPulse — Flutter News App github.com/FaresFady/NewsPulse-App

A premium-styled Flutter news application with custom UI design and smooth animations. Features live search, full Arabic/English bilingual support, and a Dark Mode for comfortable reading day and night. Includes a smart local mock-data fallback mechanism (using local storage) to gracefully handle offline states and API rate limits.

Certificates

Master Computer Science — Route Certificate 05/2024 – 10/2024

Languages

Arabic: Native
English: CEFR B1 (Intermediate)
